

Shipping to Canadian Businesses?

hybris software
An SAP Company

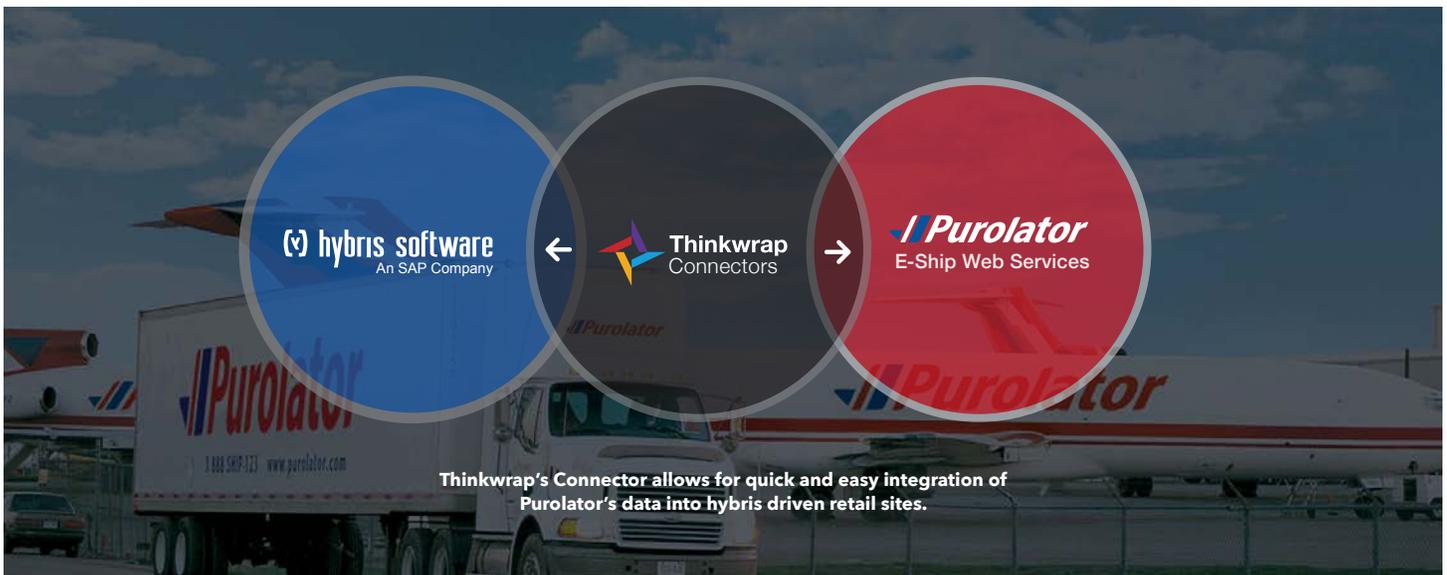

47%  47% of all Canadian businesses purchased goods or services online in 2013*

80%  80% of online B2C and B2B sales from Canadian businesses came from within Canada

#1  Purolator is the largest shipping service provider in Canada, leading in B2B shipping across the country

Purolator's E-Ship Connector for hybris

B2B customer expectations are changing as B2C purchase behaviors flow into work related activities. Business customers want to research products, compare prices and manage shipping directly online. Empower your business customers with Purolator's E-Ship Web Services Connector by enabling accurate shipping estimates, real-time tracking of deliveries, and hands-on returns management.

BENEFITS:

Empower your customers: →

Allow your clients to take control of their online procurement by presenting them with new delivery and return options, allowing them to ship to a location of their choice, and showing them where their package is at all times.

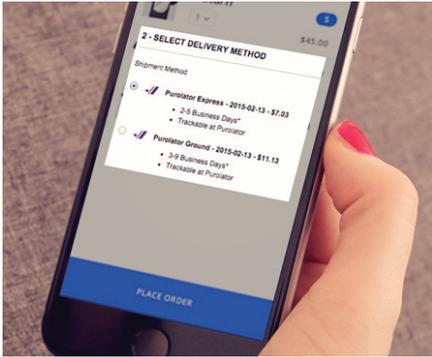

Increase operational efficiency: →

Reduce support calls by providing your customers with estimates, shipment visibility and self-service returns in real time on your commerce site.

Take control of your brand: →

Take control of the customer experience from order placement to final delivery.

Choose from the following services:

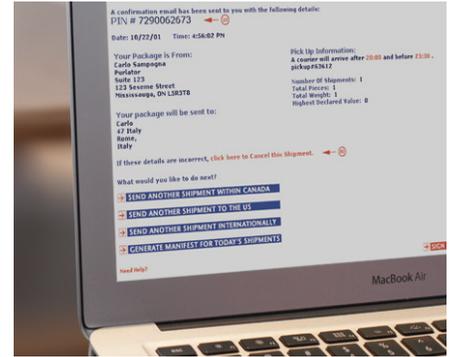

ESTIMATES

Receive quick estimates using list prices or detailed estimates for customers with negotiated pricing. Integrated into the hybris Accelerator.

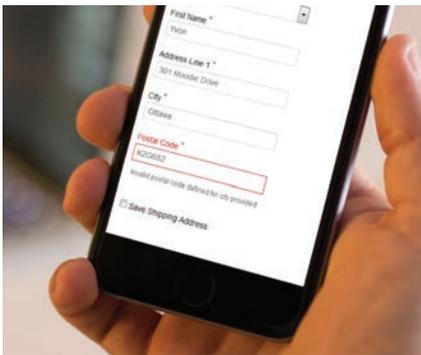

TRACKING

Bring Purolator's tracking data into your commerce site. Give your customers detailed tracking information in real-time using a Purolator PIN / tracking number or shipment reference. Integrated into the hybris Accelerator.

RETURNS MANAGEMENT

In just a few clicks, customers can generate their own return labels and shipping documents.

SERVICE AVAILABILITY

Validate origin and destination addresses and receive all available Purolator services, products, options and associated rules. Integrated into the hybris Accelerator.

SHIPPING

Ship within Canada, to and from the U.S., and more than 215 countries worldwide using our extensive suite of products.

SHIPMENT DOCUMENTS

Retrieve shipment labels and documentation for shipments.

Implementation:

- No license cost
- Open source model
- Fast implementation time in a matter of weeks
- Compatible with all recent versions of hybris
- Flexible front-end to reflect your brand
- Connectors officially approved by Purolator
